Portfolio: <https://portfolio-firuz.vercel.app>

Frontend Developer with hands-on experience building production-ready web applications using React.js, Angular, TypeScript, Redux Toolkit, and RTK Query. Experienced in developing reusable and responsive UI components, managing complex application state, integrating RESTful APIs, and optimizing frontend performance. Comfortable working in Agile teams, collaborating with designers, backend developers, and QA engineers, and following Git-based development and code review practices.

Experience

Frontend Developer, Uniser Group MMC (Junior Developer) June 2026 – Present

- Develop and maintain production-ready web applications using TypeScript, Angular, HTML, and SCSS.
- Build reusable components and maintain scalable frontend architecture.
- Integrate and consume RESTful APIs, handling asynchronous operations and application state with RxJS.
- Implement reactive and template-driven forms with validation.
- Collaborate with designers, backend developers, and QA engineers in an Agile development environment.
- Participate in code reviews, debugging, Git-based workflows, and performance improvements.
- Contribute to sprint planning, daily stand-ups, and feature delivery using Trello.

Frontend Developer, Uniser Group MMC (Intern) February 2026 – June 2026

- Developed responsive web applications using Angular(v19-21), TypeScript, HTML, and SCSS.
- Built reusable components and worked with modules, services, and routing to create structured single-page applications (SPA).
- Integrated frontend applications with RESTful APIs using Angular HttpClient and handled asynchronous operations with RxJS.
- Implemented reactive and template-driven forms with validation to improve user experience.
- Collaborated in an Agile team environment using Git and GitHub, maintaining clean and readable code.

Frontend Developer, Webluna Software (Remote) Jan 2025 - February 2026

- Developed production-ready web applications using React.js, TypeScript, Redux Toolkit, and RTK Query.
- Built reusable and responsive UI components with a focus on maintainability and performance.
- Integrated frontend applications with RESTful APIs and managed server-side data using RTK Query.
- Developed an ERP platform and implemented complex user interfaces based on business requirements.
- Developed and deployed a fully functional e-commerce application using modern frontend practices.
- Used Git-based workflows to maintain code quality, collaboration, and version control.

Frontend Developer, MEDHIS LLC (Freelance) August 2025 – November 2025

- Developed a comprehensive healthcare dashboard using React.js, TypeScript, Redux Toolkit, and RTK Query.
- Implemented reusable and responsive components for complex dashboard interfaces.
- Managed application state using Redux Toolkit and integrated RESTful APIs using RTK Query.
- Focused on frontend performance, component reusability, and maintainable architecture.
- Collaborated on feature development and translated business requirements into functional UI solutions.

- Developed mobile and web applications using Angular and Ionic, improving overall functionality and performance.
- Designed intuitive and user-friendly app interfaces for Asan Xidmət, enhancing usability and visual consistency.
- Collaborated closely with the development team using Git-based workflows, contributing to feature development and UI/UX improvements.
- Worked on real-world project tasks, helping refine user flows and enhance the overall user experience.

Skills

Frontend: React.js, TypeScript, JavaScript (ES6+), TSX, Angular, Next.js, HTML5, SCSS/Sass
State Management: Redux, Redux Toolkit, RTK Query, RxJS
API & Backend: RESTful APIs, AJAX, Node.js, Express.js
Forms & UI: Reactive Forms, Template-driven Forms, Responsive Design, Reusable Components
Development: Git, GitHub, Code Review, Agile/Scrum, OOP
Other: Ionic, Electron.js
Soft Skills: Team collaboration, problem analysis and creative thinking, high motivation and result-oriented approach, planning and initiative, completing tasks on time and with precision

Education

Baku Engineering University, Computer Science, Bachelor [GPA: 85.22] 05.09.2022 – 01.07.2026

Matrix Academy, Frontend Development [Diploma Honour Degree] 14.06.2024 – 14.01.2025

- Gained hands-on experience in building web applications using React.js and TypeScript.
 - Implemented state management with Redux Toolkit to handle complex application data.
 - Developed responsive and modular interfaces using SASS, Bootstrap for scalable styling.
 - Integrated RESTful APIs to fetch, display, and manipulate data efficiently.
- Collaborated on real-world projects, enhancing both technical skills and practical problem-solving abilities.

Languages

Azerbaijani (Native), **English** (B1-B2 level), **Turkish** (Full Proficiency)
