I am a Junior Frontend Developer with practical experience in React.js, Angular, TypeScript, and Redux Toolkit. I build responsive and scalable interfaces, integrate REST APIs, and follow clean code and Git-based workflows. I'm confident working both in a team and independently, and I continuously improve my skills while contributing to high-quality, user-focused products.

Experience

Frontend Developer, Webluna Software (Remote)

Jan 2025 - February 2026

- Led the end-to-end development of an ERP platform, utilizing React.js and RTK Query for seamless integration with REST APIs.
- Designed and implemented user-friendly and responsive interfaces with a focus on reusability and performance optimization.
- Developed and deployed a fully functional e-commerce website, ensuring alignment with business objectives and customer needs.
- Ensured code quality and maintainability through Git-based version control and adherence to best practices.

Frontend Developer, Uniser Group MMC (Intern)

February 2026 – June 2026

- Developed responsive web applications using Angular(v19-21), TypeScript, HTML, and SCSS.
- Built reusable components and worked with modules, services, and routing to create structured single-page applications (SPA).
- Integrated frontend applications with RESTful APIs using Angular HttpClient and handled asynchronous operations with RxJS.
- Implemented reactive and template-driven forms with validation to improve user experience.
- Collaborated in an Agile team environment using Git and GitHub, maintaining clean and readable code.

Frontend Developer, MEDHIS LLC (Freelance)

August 2025 – November 2025

- Built a comprehensive dashboard system for clinics and hospitals using React.js, TypeScript, Redux Toolkit, and RTK Query, ensuring seamless integration with RESTful APIs.
- Designed and implemented user-friendly, responsive, and performance-optimized interfaces with a strong focus on component reusability.
- Developed and deployed a fully functional e-commerce website, aligning technical solutions with business goals and user needs.
- Ensured high code quality and maintainability through Git-based version control, clean architecture, and adherence to industry best practices.

Frontend Developer, TogeTech (Intern)

August 2025 – Oct 2025

- Developed mobile and web applications using Angular and Ionic, improving overall functionality and performance.
- Designed intuitive and user-friendly app interfaces for Asan Xidmət, enhancing usability and visual consistency.
- Collaborated closely with the development team using Git-based workflows, contributing to feature development and UI/UX improvements.
- Worked on real-world project tasks, helping refine user flows and enhance the overall user experience.

Education

Baku Engineering University, Computer Science, Bachelor [GPA: 82]

05.09.2022 – present

Matrix Academy, Frontend Development [Diploma Honour Degree]

14.06.2024 – 14.01.2025

- Gained hands-on experience in building web applications using React.js and TypeScript.
 - Implemented state management with Redux Toolkit to handle complex application data.
 - Developed responsive and modular interfaces using SASS, Bootstrap for scalable styling.
 - Integrated RESTful APIs to fetch, display, and manipulate data efficiently.
- Collaborated on real-world projects, enhancing both technical skills and practical problem-solving abilities.

Skills & Interests

Technical Skills: Javascript, Typescript, React, Angular, Next.js, Electron.js, Redux, Redux Toolkit, RTK Query, Ionic, Git/Github, OOP, REST&SOAP API, AJAX

Soft Skills: Team collaboration, problem analysis and creative thinking, high motivation and result-oriented approach, planning and initiative, completing tasks on time and with precision

Interests: Listening music, hanging out with friends, exploring new web technologies, learning languages. My hobbies help me stay balanced while also keeping me inspired to innovate in my professional life.

Languages

Azerbaijani (Native), **English** (B1-B2 level), **Turkish** (Full Proficiency)
